Subject Index (Vol. 21)

Acetylcholine receptor
Neonatal myasthenia gravis; Toxin binding blocking antibody; Placental barrier (Vernetder Garabedian, B. (21) 41)

Antibody; Binding characteristics; Extraocular muscle; Foot muscle; Myasthenia gravis (Hayashi, M. (21) 227)

Adoptive transfer
Experimental allergic encephalomyelitis; Proteolipid protein; Lymph node cell (Van der Veen, R.C. (21) 183)

Aging
Mytilus edulis; Dopamine receptor; Thymocyte; Hemocyte; Serotonin; (Mouse) (Stefano, G.B. (21) 67)

Amphipathic α-helix
Experimental allergic neuritis; T cell epitope; P_2 protein (Olee, T. (21) 235)

Antibody
Motor neuron disease; Ganglioside; Autoimmune disease (Thomas, F.P. (21) 31)

Acetylcholine receptor; Binding characteristics; Extraocular muscle; Foot muscle; Myasthenia gravis (Hayashi, M. (21) 227)

Antigen
Genetics; Receptor; T cell; Multiple sclerosis; Polymorphism; (Human) (Beall, S.S. (21) 59)

Anti-neural antibody
Leprosy serum; Intermediate filament; Peripheral neuropathy (Benjamins, J.A. (21) 125)

Astrocyte
Oligodendrocyte; Myelin basic protein; Experimental autoimmune encephalomyelitis (Jewtoukoff, V. (21) 81)

Human CNS tissue; Oligodendrocyte; Macrophages–microglia; Gliosis; Major histocompatibility complex (Grenier, Y. (21) 103)

Major histocompatibility complex antigen; Flavivirus, T lymphocyte (Liu, Y. (21) 157)

Autoantibody
Neurofilament; cDNA clone; Fusion protein (Braxton, D.B. (21) 193)

Autoimmune disease
Motor neuron disease; Ganglioside; Antibody (Thomas, F.P. (21) 31)

Binding characteristics
Acetylcholine receptor; Antibody; Extraocular muscle; Foot muscle; Myasthenia gravis (Hayashi, M. (21) 227)

Blood–brain barrier
Pseudorabies virus; Encephalitis; IgG index, CSF; (Pig) (Wang, F.-I. (21) 3)

Endothelial barrier antigen; Immunocytochemistry; Monoclonal antibody; Peroxidase antiperoxidase; (Electron microscopy) (Sternberger, N.H. (21) 241)

Brain
Canine distemper virus; Viremia; Endothelium (Krakowka, S. (21) 75)

Canine distemper virus
Viremia; Endothelium; Brain (Krakowka, S. (21) 75)

Cerebrospinal fluid T lymphocyte
Multiple sclerosis; Human retrovirus (Merrill, J.E. (21) 213)

Chronic viral infection
Cyclosporin A; Coronavirus (MHV3); Immune response, intra-CNS (Boespflug, O. (21) 49)

Coronavirus (MHV3)
Cyclosporin A; Chronic viral infection; Immune response, intra-CNS (Boespflug, O. (21) 49)

Cyclosporin A
Coronavirus (MHV3); Chronic viral infection; Immune response, intra-CNS (Boespflug, O. (21) 49)

Cytotoxic T cell
Virus persistence; Major histocompatibility complex antigen; Measles virus; Nervous system (Maehlen, J. (21) 149)

0165-5728/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

Cytotoxic T lymphocyte
Multiple sclerosis; Measles virus polypeptide (Dhib-Jalbut, S. (21) 205)

cDNA clone
Autoantibody; Neurofilament; Fusion protein (Braxton, D.B. (21) 193)

DNA repair
Multiple sclerosis; Peripheral blood lymphocyte; Gamma radiation; Heat shock (Sola, P. (21) 23)

Dopamine receptor
Mytilus edulis; Thymocyte; Hemocyte; Serotonin; Aging; (Mouse) (Stefano, G.B. (21) 67)

Encephalitis
Pseudorabies virus; IgG index, CSF; Blood–brain barrier; (Pig) (Wang, F.-I. (21) 3)

Endothelial barrier antigen
Blood–brain barrier; Immunocytochemistry; Monoclonal antibody; Peroxidase antiperoxidase; (Electron microscopy) (Sternberger, N.H. (21) 241)

Endothelium
Canine distemper virus; Viremia; Brain (Krakowka, S. (21) 75)

Major histocompatibility complex; Immunopathology; Experimental allergic encephalomyelitis (Male, D. (21) 87)

Experimental allergic encephalomyelitis
Major histocompatibility complex; Immunopathology; Endothelium (Male, D. (21) 87)

Experimental allergic encephalomyelitis, chronic-relapsing
Immunity, cell-mediated; Isoelectric focusing, IgG; Myelin basic protein; Liposome (St. Louis, J. (21) 137)

Proteolipid protein; Adoptive transfer; Lymph node cell (Van der Veen, R.C. (21) 183)

Experimental allergic neuritis
Amphipathic α-helix; T cell epitope; P_2 protein (Olee, T. (21) 235)

Experimental autoimmune encephalomyelitis
Lymphocyte vaccination; Vaccination protocol; (Lewis rat) (Offner, H. (21) 13)

Oligodendrocyte; Astrocyte; Myelin basic protein (Jewtoukoff, V. (21) 81)

Extraocular muscle
Acetylcholine receptor; Antibody; Binding characteristics; Foot muscle; Myasthenia gravis (Hayashi, M. (21) 227)

Flavivirus, T lymphocyte
Astrocyte; Major histocompatibility complex antigen (Liu, Y. (21) 157)

Foot muscle
Acetylcholine receptor; Antibody; Binding characteristics; Extraocular muscle; Myasthenia gravis (Hayashi, M. (21) 227)

Fusion protein
Autoantibody; Neurofilament; cDNA clone (Braxton, D.B. (21) 193)

Gamma radiation
Multiple sclerosis; Peripheral blood lymphocyte; DNA repair; Heat shock (Sola, P. (21) 23)

Gammopathy
Paraproteinemia; Neuropathy; Ganglioside; Glycolipid (Kusunoki, S. (21) 177)

Ganglioside
Motor neuron disease; Antibody; Autoimmune disease (Thomas, F.P. (21) 31)

Paraproteinemia; Gammopathy; Neuropathy; Glycolipid (Kusunoki, S. (21) 177)

Genetics
Receptor; Antigen; T cell; Multiple sclerosis; Polymorphism; (Human) (Beall, S.S. (21) 59)

Gliosis
Human CNS tissue; Astrocyte; Oligodendrocyte; Macrophages–microglia; Major histocompatibility complex (Grenier, Y. (21) 103)

Glycolipid
Paraproteinemia; Gammopathy; Neuropathy; Ganglioside (Kusunoki, S. (21) 177)

Heat shock
Multiple sclerosis; Peripheral blood lymphocyte; DNA repair; Gamma radiation (Sola, P. (21) 23)

Hemocyte
Mytilus edulis; Dopamine receptor; Thymocyte; Serotonin; Aging; (Mouse) (Stefano, G.B. (21) 67)

Human CNS tissue
Astrocyte; Oligodendrocyte; Macrophages–microglia; Gliosis; Major histocompatibility complex (Grenier, Y. (21) 103)

Human retrovirus
Multiple sclerosis; Cerebrospinal fluid T lymphocyte (Merrill, J.E. (21) 213)

IgG index, CSF
Pseudorabies virus; Encephalitis; Blood–brain barrier; (Pig) (Wang, F.-I. (21) 3)

Immune response, intra-CNS
Cyclosporin A; Coronavirus (MHV3); Chronic viral infection (Boespflug, O. (21) 49)

Immunity, cell-mediated
Experimental allergic encephalomyelitis, chronic-relapsing; Isoelectric focusing, IgG; Myelin basic protein; Liposome (St. Louis, J. (21) 137)

Immunocytochemistry
Blood–brain barrier; Endothelial barrier antigen; Monoclonal antibody; Peroxidase antiperoxidase; (Electron microscopy) (Sternberger, N.H. (21) 241)

Immunoglobulin gene rearrangement
Myasthenia gravis; T cell receptor gene rearrangement; Thymus (Tesch, H. (21) 169)

Immunomodulation
Opiate; Morphine; Naloxone; Lymphocyte (Ovadia, H. (21) 93)

Immunopathology
Major histocompatibility complex; Endothelium; Experimental allergic encephalomyelitis (Male, D. (21) 87)

Interleukin-2 receptor
Neuroimmunology; Pituitary cell (Smith, L.R. (21) 249)

Intermediate filament
Anti-neural antibody; Leprosy serum; Peripheral neuropathy (Benjamins, J.A. (21) 125)

Isoelectric focusing, IgG
Experimental allergic encephalomyelitis, chronic-relapsing; Immunity, cell-mediated; Myelin basic protein; Liposome (St. Louis, J. (21) 137)

Leprosy serum
Anti-neural antibody; Intermediate filament; Peripheral neuropathy (Benjamins, J.A. (21) 125)

Liposome
Experimental allergic encephalomyelitis, chronic-relapsing; Immunity, cell-mediated; Isoelectric focusing, IgG; Myelin basic protein (St. Louis, J. (21) 137)

Lymph node cell
Experimental allergic encephalomyelitis; Proteolipid protein; Adoptive transfer (Van der Veen, R.C. (21) 183)

Lymphocyte
Opiate; Morphine; Naloxone; Immunomodulation (Ovadia, H. (21) 93)

Lymphocyte vaccination
Experimental autoimmune encephalomyelitis; Vaccination protocol; (Lewis rat) (Offner, H. (21) 13)

Macrophages–microglia
Human CNS tissue; Astrocyte; Oligodendrocyte; Gliosis; Major histocompatibility complex (Grenier, Y. (21) 103)

Major histocompatibility complex
Immunopathology; Endothelium; Experimental allergic encephalomyelitis (Male, D. (21) 87)

Human CNS tissue; Astrocyte; Oligodendrocyte; Macrophages–microglia; Gliosis (Grenier, Y. (21) 103)

Major histocompatibility complex antigen
Microglia; Retrograde reaction (Streit, W.J. (21) 117)

Cytotoxic T cell; Virus persistence; Measles virus; Nervous system (Maehlen, J. (21) 149)

Astrocyte; Flavivirus, T lymphocyte (Liu, Y. (21) 157)

Measles virus
Cytotoxic T cell; Virus persistence; Major histocompatibility complex antigen; Nervous system (Maehlen, J. (21) 149)

Measles virus polypeptide
Multiple sclerosis; Cytotoxic T lymphocyte (Dhib-Jalbut, S. (21) 205)

Microglia
Major histocompatibility complex antigen; Retrograde reaction (Streit, W.J. (21) 117)

Monoclonal antibody
Blood–brain barrier; Endothelial barrier antigen; Immunocytochemistry; Peroxidase antiperoxidase; (Electron microscopy) (Sternberger, N.H. (21) 241)

Morphine
Opiate; Naloxone; Lymphocyte; Immunomodulation (Ovadia, H. (21) 93)

Motor neuron disease
Ganglioside; Antibody; Autoimmune disease (Thomas, F.P. (21) 31)

Multiple sclerosis
Peripheral blood lymphocyte; DNA repair; Gamma radiation; Heat shock (Sola, P. (21) 23)

Genetics; Receptor; Antigen; T cell; Polymorphism; (Human) (Beall, S.S. (21) 59)

Measles virus polypeptide; Cytotoxic T lymphocyte (Dhib-Jalbut, S. (21) 205)

Cerebrospinal fluid T lymphocyte; Human retrovirus (Merrill, J.E. (21) 213)

Myasthenia gravis
Immunoglobulin gene rearrangement; T cell receptor gene rearrangement; Thymus (Tesch, H. (21) 169)

Acetylcholine receptor; Antibody; Binding characteristics; Extraocular muscle; Foot muscle (Hayashi, M. (21) 227)

Myelin basic protein
Oligodendrocyte; Astrocyte; Experimental autoimmune encephalomyelitis (Jewtoukoff, V. (21) 81)

Experimental allergic encephalomyelitis, chronic-relapsing; Immunity, cell-mediated; Isoelectric focusing, IgG; Liposome (St. Louis, J. (21) 137)

Mytilus edulis
Dopamine receptor; Thymocyte; Hemocyte; Serotonin; Aging; (Mouse) (Stefano, G.B. (21) 67)

Naloxone
Opiate; Morphine; Lymphocyte; Immunomodulation (Ovadia, H. (21) 93)

Neonatal myasthenia gravis
Toxin binding blocking antibody; Acetylcholine receptor; Placental barrier (Vernet-der Garabedian, B. (21) 41)

Nervous system
Cytotoxic T cell; Virus persistence; Major histocompatibility complex antigen; Measles virus (Maehlen, J. (21) 149)

Neurofilament
Autoantibody; cDNA clone; Fusion protein (Braxton, D.B. (21) 193)

Neuroimmunology
Interleukin-2 receptor; Pituitary cell (Smith, L.R. (21) 249)

Neuropathy
Paraproteinemia; Gammopathy; Ganglioside; Glycolipid (Kusunoki, S. (21) 177)

Oligodendrocyte
Astrocyte; Myelin basic protein; Experimental autoimmune encephalomyelitis (Jewtoukoff, V. (21) 81)

Human CNS tissue; Astrocyte; Macrophages–microglia; Gliosis; Major histocompatibility complex (Grenier, Y. (21) 103)

Opiate
Morphine; Naloxone; Lymphocyte; Immunomodulation (Ovadia, H. (21) 93)

Paraproteinemia
Gammopathy; Neuropathy; Ganglioside; Glycolipid (Kusunoki, S. (21) 177)

Peripheral blood lymphocyte
Multiple sclerosis; DNA repair; Gamma radiation; Heat shock (Sola, P. (21) 23)

Peripheral neuropathy
Anti-neural antibody; Leprosy serum; Intermediate filament (Benjamins, J.A. (21) 125)

Peroxidase antiperoxidase
Blood–brain barrier; Endothelial barrier antigen; Immunocytochemistry; Monoclonal antibody; (Electron microscopy) (Sternberger, N.H. (21) 241)

Pituitary cell
Interleukin-2 receptor; Neuroimmunology (Smith, L.R. (21) 249)

Placental barrier
Neonatal myasthenia gravis; Toxin binding blocking antibody; Acetylcholine receptor (Vernet-der Garabedian, B. (21) 41)

Polymorphism
Genetics; Receptor; Antigen; T cell; Multiple sclerosis; (Human) (Beall, S.S. (21) 59)

P_2 protein
Experimental allergic neuritis; Amphipathic α-helix; T cell epitope (Olee, T. (21) 235)

Proteolipid protein
Experimental allergic encephalomyelitis; Adoptive transfer; Lymph node cell (Van der Veen, R.C. (21) 183)

Pseudorabies virus
Encephalitis; IgG index, CSF; Blood–brain barrier; (Pig) (Wang, F.-I. (21) 3)

Receptor
Genetics; Antigen; T cell; Multiple sclerosis; Polymorphism; (Human) (Beall, S.S. (21) 59)

Retrograde reaction
Major histocompatibility complex antigen; Microglia (Streit, W.J. (21) 117)

Serotonin
Mytilus edulis; Dopamine receptor; Thymocyte; Hemocyte; Aging; (Mouse) (Stefano, G.B. (21) 67)

T cell
Genetics; Receptor; Antigen; Multiple sclerosis; Polymorphism; (Human) (Beall, S.S. (21) 59)

T cell epitope
Experimental allergic neuritis; Amphipathic α-helix; P_2 protein (Olee, T. (21) 235)

T cell receptor gene rearrangement
Myasthenia gravis; Immunoglobulin gene rearrangement; Thymus (Tesch, H. (21) 169)

Thymocyte
Mytilus edulis; Dopamine receptor; Hemocyte; Serotonin; Aging; (Mouse) (Stefano, G.B. (21) 67)

Thymus
Myasthenia gravis; Immunoglobulin gene rearrangement; T cell receptor gene rearrangement (Tesch, H. (21) 169)

Toxin binding blocking antibody
Neonatal myasthenia gravis; Acetylcholine receptor; Placental barrier (Vernet-der Garabedian, B. (21) 41)

Vaccination protocol
Lymphocyte vaccination; Experimental autoimmune encephalomyelitis; (Lewis rat) (Offner, H. (21) 13)

Viremia
Canine distemper virus; Endothelium; Brain (Krakowka, S. (21) 75)

Virus persistence
Cytotoxic T cell; Major histocompatibility complex antigen; Measles virus; Nervous system (Maehlen, J. (21) 149)

(Contents, continued from back cover)

Short Communications
A T cell epitope for experimental allergic neuritis is an amphipathic α-helical structure (JNI 00748)
T. Olee, M. Weise, J. Powers and S. Brostoff (U.S.A.) 235
Cell surface endothelial proteins altered in experimental allergic encephalomyelitis (JNI 00755)
N.H. Sternberger, L.A. Sternberger, M.W. Kies and C.R. Shear (U.S.A.) 241
Interleukin-2 induction of ACTH secretion: presence of an interleukin-2 receptor α-chain-like molecule on pituitary cells (JNI 00754)
L.R. Smith, S.L. Brown and J.E. Blalock (U.S.A.) 249
